

COMFORT FIRST PPE

BBI PLASTICS

"The BBI Face Shield is such a fantastic piece of design work. It is incredibly comfortable, easy to assemble and wear. It also comes in a choice of colours. I'll be wearing pink! Also a portion of the sales is given to the WHO covid relief fund. A great product all round."

Doctor, UK National Health Service

It's a very comfortable design. I like that it doesn't fog up when wearing the shield as other models do, and its adjustability means it remains comfortable. The best thing is that my mask attaches to the EarSaver strap, as I, like many others have sores at the top of my ears from the daily use of our standard issue PPE.

Senior Nursing Sister, UK National Health Service
